

Jim's Honey Service

Dear Campers,

We would like to welcome you back for another fun-filled year here at Pine Lake Park Campgrounds. For those of you who may not be aware, there has been a change of hands with the "Honey" service going forward. James (aka Mitch) and Joslyn Mitchell will be taking care of your black water needs.

For those of you who may be new or unfamiliar with our service, it is a form of onsite septic. We will visit your trailer every other week to pump out your black water tank with our honey wagon. This is an easy way for you to enjoy camping without the mess of having to dump your black water with the use of the blue wagon. Those of you who have had this service in the past know how nice it is to have and for those who have not tried it, I encourage you to do so.

The cost of the service is \$200 for each black water tank for the season plus tax. This will include being pumped out every other week and at the end of the season. For those of you that spend more time at the lake and would to be dumped each week, there will be an additional charge of \$85.

If you have an emergency and your tank is full and you need to dump into the blue wagon, please get ahold of me first to see if something can be done with it. We will not be available on Holiday weekends.

To sign up for this service or if you have any questions, please feel free to call me on my cell at **(518) 332-5780** or Joslyn on her cell at **(518) 866-3986**. Our camp number is **(518) 604-4228**. We are located at Site #45.

One thing to remember, these **are not** like your home toilets. You **cannot** put anything in them except **RV toilet paper!**

Thank you and hope you give it a try.

Mitch and Joslyn
